- (xviii) "Protective Covenants" shall mean and include each and all of the following:
 - i. all residences and structures including garages, sheds, fences, etc. on the GHHO Lot must meet local building codes and be constructed and pass inspection under the authorization of a building permit. Ready to move (RTM) homes are allowed provided they were constructed in Manitoba and meet the other requirements of this Agreement. Relocation of an existing home will require inspection and approval of the Municipal Inspector prior to moving and must meet the other requirements of this Agreement. Mobile homes (trailers) are not allowed. The R.M. of Lac du Bonnet has building code standards and regulations, which must be adhered to as a *minimum*;
 - ii. all one-storey residences must have an interior floor area of at least 1,000 square feet; all two storey homes must be a minimum of 1,800 square feet on two floors, excluding garages, carports, breeze ways, patios, and the like;
 - iii. no more than one driveway or approach is permitted to each GHHO Lot and no driveway or approach may have more than one access to the roadway. All driveways will require a permit from the R.M. of Lac du Bonnet and a metal culvert and placement as outlined in the Municipal Standards and this cost is the responsibility of the GHHO Titleholder;
 - iv. each driveway where it enters the roadway shall have a permanent marker indicating the lot number of the property. The R.M. of Lac du Bonnet may require additional numbering with reference to the local 911 numbering scheme;
 - v. all buildings are to be constructed with new materials. The only exception to this requirement is that reclaimed brick will be allowed for veneer;
 - vi. all residences must be designed and constructed in such a way as to form an attractive and integral part of their environment. It is strongly desired that exterior finishes be a natural material, preferably from a renewable resource such as stucco, brick, wood and of a color complementary with a natural environment (earth tones). However, due to its popularity vinyl siding will be allowed providing the colors are complementary of the natural environment, based on earth tones;
 - vii. if metal chimneys are considered for use for wood burning units, they shall be enclosed or encased in the same material as the exterior finish, if permissible by code;
 - viii. exterior structures, such as any detached building (garage or shed) must be constructed with the same exterior finish material and the same roofing materials as the primary residence using earth tone colors;

 - x. all GHHO Lots must be hand cleared of trees and vegetation. Clearing of GHHO Lots by mechanical means (caterpillar, loader, and the like) will not be allowed. All undergrowth, small bushes, branches and twigs must be hauled to the local landfill or may be burned only under the permission of a burning permit during the period of

time when snow is present on the ground. Hand Clearing of Lots. The intention of the requirement is to prevent owners from using machinery such as bulldozers, trackhoes, backhoes, etc. from pushing down standing trees in the lot. This type of clearing endangers adjacent properties, utilities and is unsightly at best. Trees/brush that have been felled can be moved or loaded using mechanical means such as tractors, bobcats, backhoes etc. but all trees/brush must be cut by hand. Due to the danger of fire spreading through the subdivision and the golf course, burning of brush piles will only be allowed under the permission of a burning permit and only during times when there is snow present on the ground.

- xi. Mature trees that have been cleared for GHHO Lot development can be piled and stored for firewood. The materials shall be neatly piled in such a manner that it is not easily viewed from the roadway or adjoining lots. This material shall be cut and split as required and shall be consumed within three (3) years of the original clearing. The intention of this requirement is to allow the owners to retain and use materials from the lot clearing activity without allowing the wood to become decayed, unusable or a rodent attractant while sitting in a pile on the lot. Proper splitting, piling and storage is essential.
- xii. The elevation of the GHHO Lot shall not be changed so as to materially affect the surrounding lots with regards to drainage and aesthetics. Perching and drainage slope angles around the residence must conform to the Municipal Standards.
- xiii. All landscaping will be completed within one year of completion of the exterior of the residence. GHHO Titleholders will be responsible for the regular cutting and keeping neat the drainage ditch on their frontage. This includes grass cutting and weed removal.
- xiv. The dwelling and property are to be kept in a neat and tidy condition at all times.
- xv. All residences must have holding tanks for sanitary sewage. Septic fields are not allowed.
- xvi. No signs, billboards or other advertising matter of any kind (except the ordinary signs offering for sale or rent the lands and the buildings thereon) shall be placed on any part of the said lands or upon any buildings or on any fence, tree or other structure on said lands.
- xvii. The GHHO Titleholders will be required to coordinate the connection of their water supply line to the water main with the Developer at the cost of the GHHO Titleholder.
- xviii. No trailers, mobile homes, tents or other portable or temporary housing accommodation may be placed on a GHHO Lot for the purpose of storage or as a temporary or permanent residence, except for a two-year period during the time that a permanent residence is being constructed, starting from the date of the commencement of construction. NO secondary/detached buildings will be allowed for accommodation including guest, summer homes and the like.
- xix. Following the commencement of construction of a residence, the exterior and the exterior finish must be completed within two years. This includes outbuildings such as, but not limited to, garages, sheds, and the like.
- xx. No portion of a residence (home) may be constructed within fifty (50) feet of the golf course and no buildings shall be closer than twenty (20) feet to the golf course property line.
- xxi. The R.M. of Lac du Bonnet has requirements for clearances from property lines, building sizes, etc. and must be conformed to.

- xxii. Trees may be cleared to the golf course property, however the majority of larger trees exceeding twenty (20) feet in height and birch/evergreen trees must be left in place to provide a natural screen between the residence and the golf course. Evergreens may have the lower branches trimmed up to allow a view.
- xxiii. No unlicensed motor vehicles, including but not limited to cars, trucks, vans, buses, motorcycles, snowmobiles, etc., shall be stored outside. All vehicles of these types shall be stored in doors. Abandoned and or derelict vehicles are not allowed.
- xxiv. Storage of motor homes, 5th wheel trailers, travel trailers, boats are allowed on the GHHO Lot. However, these items should be stored in an inconspicuous location and shall be subject to xviii above.
- xxv. No horses, cattle, sheep or other stock animals other than household pets normally permitted in private homes shall be kept upon the said lands and no breeding of pets for sale shall be carried out upon the said lands. Household pets shall be confined within the GHHO Lot or shall be on a leash. Free roaming of pets will not be allowed.
- xxvi. All garbage, rubbish, refuse and waste materials shall be properly stored in a sanitary manner in order and so as not to be accessible to pets, rodents or wildlife and in an enclosure large enough so that no garbage, rubbish, refuse and waste materials are visible. Removal of said garbage, rubbish, refuse and waste shall occur on a frequency to prevent odors, smell or the attraction of insects.
- xxvii. No incinerator, garbage burning barrel or other devices will be allowed on the GHHO Lot, with the exception of properly contracted and maintained composting units, or an EPA certified wood burning appliance/heating device contained within the residence. Exterior wood burning devices intended for uses such as barbeques, wiener roasts and contained bonfires are allowed provided that they are operated under a permit if required. Regular domestic propane/charcoal barbeques are allowed.
- xxviii. Any business conducted within the GHHO Lot must be wholly contained within the buildings on the site. No parking or storing of vehicles, materials, parts, etc. external to the buildings will be allowed and must conform to xvi above.
- xxix. Legal Survey – Monuments. Any conflicts arising out of impingements on property lines or offsets are the responsibility of the Member;

- (xix) “Special Resolution” means a resolution passed relating to Special Business matters, by no less than seventy percent (70%) of the votes cast on that resolution, and without limiting the generality of the foregoing, the creation/amendment of the By-Laws by the Directors, or any Membership change thereto, or to the Protective Covenants, shall require no less than seventy percent (70%) of the votes cast on that resolution.
